NAVEENKUMAR R

FULL STACK DEVELOPER

+91 6369249851 | naveenkumar11301@gmail.com | LinkedIn | Portfolio | Coimbatore, Tamil Nadu, India

Full Stack Developer with 2+ years of experience building scalable mobile and web applications using React Native and React modern JavaScript technologies. Skilled in REST API development, real-time features, and AI-integrated platforms. Passionate about building high-performance, user-centric applications and exploring Generative AI solutions.

SKILLS

- **Frameworks:** React Native (Android & iOS), React.js, Next.js.
- **Programming Language:** JavaScript (ES6+), TypeScript (Basic), Node.js, HTML5, CSS.
- **State Management:** Redux Toolkit.
- **Authentication:** JWT Authentication.
- **Backend & APIs:** REST API Development, Express.js, MongoDB.
- **Version Control:** Git, GitHub (branching, pull requests, issue tracking)
- **Deployment:** Published Android (Play Store)
- **Tools:** VS Code, Postman.

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER | Trident Solutions Pvt Ltd **Jun 2026 – July 2026**

- Contributing to the development of scalable mobile and web applications using Next.js, Node.js, and MongoDB.
- Designed and implemented modular and reusable component architecture to support multiple application environments (development, staging, production).
- Developed and integrated RESTful APIs using Express.js, ensuring secure and optimized communication between frontend and backend systems

Niticore - AI Governance & Risk Management Platform

- Contributed to the development of an AI governance platform by designing and implementing the web UI using Next.js, enabling organizations to monitor and manage AI frameworks through an intuitive and responsive interface.
- Developed and integrated REST APIs with backend logic to support AI risk assessment workflows, enabling automated detection of potential risks within AI models and providing actionable controls to mitigate them.
- Implemented audit management features that track risk remediation activities and generate compliance reports, ensuring end-to-end governance visibility across AI systems.

FULL STACK DEVELOPER | Aroganam Technologies Pvt Ltd **Feb 2024 – Mar 2026**

- Contributing to the development of scalable mobile and web applications using React Native, React.js, Node.js, and MongoDB.
- Designed and implemented modular and reusable component architecture to support multiple application environments (development, staging, production).
- Developed and integrated RESTful APIs using Express.js, ensuring secure and optimized communication between frontend and backend systems
- Implemented state management using Redux Toolkit / Context API for efficient data flow and improved application performance.

Recroot.app - Ai powered Mock interview App

- Contributed to the development of an AI-powered mock interview platform by designing and implementing the mobile UI using React Native.
- Developed and integrated REST APIs, along with backend logic, to support interview workflows and candidate evaluation.
- Implemented real-time voice and video communication using WebRTC to simulate live interview environments.
- Integrated AI-based feedback processing to analyze candidate responses and generate performance insights.

Cropsmile - Innovation in Agriculture

- Developed an agritech platform connecting farmers, startups, and investors to enable collaboration, knowledge sharing, and agricultural innovation.
- Designed and built scalable mobile application features using React Native, focusing on performance optimization and intuitive user experience.
- Developed and integrated secure RESTful APIs using Express.js to manage user onboarding, profile management, and data exchange.
- Optimized backend database queries in MongoDB to ensure faster data retrieval and improved application responsiveness.

EDUCATION

MCA | Hindusthan College of Engineering and Technology – Master's degree | Coimbatore. 2021 – 2023

BCA | Kongu Arts and Science - Bachelor's degree | Erode. 2018 – 2021

LANGUAGES

- English (Fluent)
- Tamil (Native)
